## ENCHILADAS vs BURRITOS

In appearance both enchiladas and burritos look alike but they are different in the contents, taste, and flavour. One of the main differences between enchiladas and burritos is in the type of tortilla used. While corn is used for making enchiladas (making them Gluten Free ) , wheat flour is used for making burritos. The corn tortilla is filled with beef, cheese, chicken and other fillings and ingredients which go into the making of enchiladas and are rolled.

In burritos, the wheat flour tortilla is folded around a filling.
